Munich Teacher Tells Countrymen United States Has Power to Nullify Teutonic Triumph by Use of Economic Pressure.

BY PROFESSOR M. F. BONN. [International News Bureau.] German opinion is much perplexed over "the President Wilson riddle." How is he to be understood, and what exactly is he aiming at? How comes it that the world's greatest pacifist of a year ago is to-day the world's greatjusquaboutist, that the man who in December, 1916, asked Europe to accept a peace without victors or vanquished, is to-day the enemy statesman who is insistent on victory? The conventional explanation in Germany is, as might be expected the least generous; that it is also grotesquery aboutd does not diminish the conviction with which it is held. Dr. Wilson's phrase-making, it is believed, is a more blind, he was as insincere in his pacifism twelve months since as he is in his professed idealism; he made the 17-boa campaign his pretext for entering the war; he was simply awaiting for a pre-text, and if the U-boat had not served his purpose, another pretext would have been found. All this is the sham Wilson, which must not be taken too seriously; the true Wilson is a 'hardheaded business American" with vast of the United States into a supreme world-power, which will "displace Eng-land from her position," and dictate

PEACE NEGOTIATIONS OFF

l'etrograd Correspondent Learns of Break at Brest Litovsk Over Question of Ukraine.

f By Associated Press. 1 LONDON, February 6 .- The negotiations at Brest Litovsk have been broken off, the correspondent at Petrograd of the Exchange Telegraph Company says he is informed.

Reports from Brest Litovsk in the last few days indicated that a deadlock had been reached on the question of Ukraine. After the Ukrainian delegates had almost completed an agreement with the Germans and Austrians for a separate peace, the Bolsheviki sent to Brest Litovsk new delegates who they said were the real representatives of Ukraine. The representatives of the central powers, anxious to make peace with Ukraine and obtain food supplies there, refused to recognize the new delegates, who represent the Soldiers' and Workmen's deputies Ukraine, whereas the first delegation

was selected by the Ukrainian rada. This situation was considered at the crown council in Berlin on Monday, after which the German and Austro-Hungarian foreign ministers left for Brest Litovsk.

RELIABLE METHOD OF HAIR CARE

Hair is by far the most conspicuous thing about us and is probably the most easily damaged by bad or careless treatment. If we are very careful in hair washing, we will have virtually no hair troubles. An especially fine shampoo for this weather, one that brings out all the natural beauty of the hair, that dissolves and entirely removes all dandruff, excess oil and dirt, can easily be used at triffing expense by sim-ply dissolving a teaspoonful of canthrox (which you can get at any druggist), in a cup of hot water. This makes a full cup of shampoo liquid, enough so it is easy to apply it to all the hair ingtead of just the top of the head. This chemically dissolves all impurities and creates a soothing, cooling lather. Rinsing leaves the scalp spotlessly clean, soft and pliant, while the hair takes on the glossy richness of natural color, also a fluffiness which makes it seem much heavier than it is. After Canthrox shampoo, arranging the hair is a pleasure.—Adv.
